- Flexes in 8 different directions for a superb result

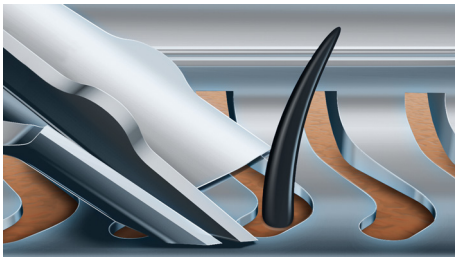
A Comfortable Shave
- Super Lift&Cut Action lifts hairs to cut comfortably close

Easy to use
- Easy to replace shaving heads
- Reset your shaver after replacing shaving heads

PHILIPS

Highlights

V-Track Precision Blades



The patented V-Track Precision Blades gently position each hair in the best cutting angle, even hairs that are flat or different lengths. This allows you to cut 30% closer in less strokes leaving your skin in great condition.

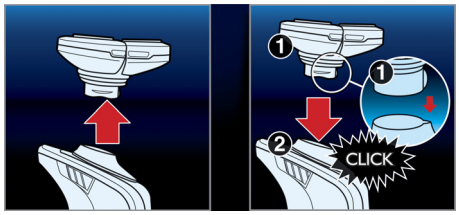
Contour Detect Technology

The new fully flexible 8X directional heads maximize facial adaptability requiring less effort in every stroke. Its independent movements allow to catch 20% more hairs for a clean shave in less strokes.

Super Lift & Cut Action

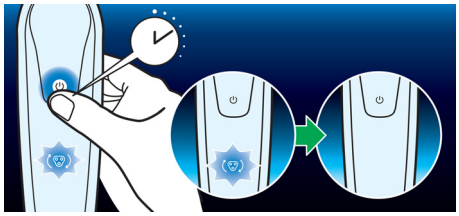
The dual blade system built into the Philips electric shaver lifts hairs to cut comfortably below skin level for a closer shave.

Simple replacement



Easily renew your shaving unit using our click off, click on system.

Reset your shaver to new



The latest Philips shavers have an inbuilt replacement reminder which will indicate you when to replace shaving heads. After replacing shaving heads, you can reset replacement trigger by pressing the on/off button for more than 5 seconds. Otherwise, replacement trigger will turn off automatically after 9 successive shaves.
